## WHAT IS THIS PRODUCT?

Type : This product is a fund of Baron Capital UCITS ICAV, an Irish collective asset management vehicle constituted as an umbrella fund with segregated liability between Funds and authorised by the Central Bank of Ireland pursuant to the European Communities Regulations 2011.

Term : This product has no maturity date. However, the Board of Directors may decide to close the product under certain circumstances.

Objectives : • Baron Capital US All Cap Focused Growth Fund's (Fund) investment objective is to seek capital appreciation over the long term. The Fund seeks to achieve its investment objective by investing primarily in equity securities issued by primarily U.S. growth companies across all market capitalisations. A growth company is one that the Investment Manager expects will grow at a faster rate than the broad market.

• The Fund promotes environmental and social characteristics within the meaning of Article 8 of the Sustainable Finance Disclosure Regulation (EU) 2019/2088 (SFDR). To identify investment risks and opportunities the Investment Manager is analysing the environmental, social, and governance ("ESG") factors relating to investee companies. The Investment Manager also applies an exclusionary screen which prohibits the set-up of potential investments in companies in the adult entertainment, civilian firearms, cluster munitions, and tobacco industries, as described in more detail in the Prospectus.

• The Fund will invest primarily in the following securities which may be issued and listed, or traded in the U.S., including equity securities of companies of any sector or industry classification, which may include common stocks, depositary receipts (American Depositary Receipts, European Depositary Receipts or Global Depositary Receipts) and related securities such as preferred stocks, real estate investment trusts (REITs), private placement securities, subscription rights, warrants, equity-linked notes, unlisted equity securities, initial public offerings (IPOs), secondary offerings, Rule 144A or Regulation S securities (securities offered outside of the U.S. but which are exempt from the registration requirements of Section 5 of the U.S. Securities Act of 1993), partnership interests (interests in partnerships traded on a recognised securities exchange) and convertible securities. In addition, the Fund may invest in collective investment schemes (including exchange traded funds (ETFs)) which are themselves exposed to investments that are similar to the Fund's other investments. Such collective investment schemes may or may not be managed by the Investment Manager or its affiliates and will comply with the requirements of the UCITS Regulations in respect of such investments. The Fund will not enter into repurchase agreements or reverse repurchase agreements. The Fund does not expect to enter into securities lending transactions, but may do so up to 25% of its Net Asset Value.

• The Investment Manager's approach to identifying equity securities is fundamental, bottom-up, and research driven. The Investment Manager identifies companies it believes have strong fundamentals, regardless of the macroeconomic environment and seeks to identify whether companies have the following criteria: significant growth potential, durable competitive advantages, exceptional management and compelling valuations relative to the Investment Manager's projections of intrinsic value.

• The Fund may hold cash or invest its cash balances at such times deemed appropriate by the Investment Manager. These investments will be high quality, liquid assets, such as investment grade, short-term debt securities which are listed, traded or dealt in on Recognised Markets and/or cash and cash equivalents (including UCITS eligible money market funds, UCITS eligible passive index tracking ETFs and cash deposits and near cash instruments, such as bank certificates of deposit or bank deposits with credit institutions).

• The currency of the Fund is USD, the currency of this product is EUR. The minimum initial investment for this share Class is EUR 1,000,000.

• The Fund launched on 29 September 2023. The Share Class launched on 29 September 2023.

• The Fund is actively managed. It does not track or seek to replicate the composition of any index or benchmark and is not constrained by any index or benchmark.

Intended retail investor : Investment in the Fund is suitable for knowledgeable investors who are seeking capital appreciation over the long term but who understand and can accept fluctuations in the value of the investments over the short term, which may temporarily even lead to a scenario of substantial loss of value.

Depository: State Street Custodial Services (Ireland) Limited

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### Risk indicator

The risk indicator assumes you keep the product for 7 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

**Be aware of currency risk.** You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Investors shall note that besides the risks included in the risk indicator, other risks such as risk associated with depositary receipts, concentration risk, growth investing risk, risks of emphasizing a sector or industry, liquidity risk, foreign exchange, may affect the Fund's performance. Please refer to the Prospectus for further details.

This product does not include any protection from future market performance so you could lose some or all of your investment. If not able to pay you what is owed, you could lose your entire investment.

## WHAT HAPPENS IF FUNDROCK MANAGEMENT COMPANY S.A. (MANAGEMENT COMPANY) IS UNABLE TO PAY OUT ?

The Management Company is responsible for the administration and management of the Fund, and does not typically hold assets of the Fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). Shareholders should be aware that the ICAV reserves the right to accept or reject a conversion of Shares in its sole discretion. The investor can obtain information about how to convert in the Prospectus of the Fund.

This means that if the liabilities of a Share Class exceed its assets, creditors of such Share Class may have recourse without restriction to assets which are attributable to the other Share Classes within the same Fund.

**Additional Information:** Copies of the latest Prospectus, annual report, semi-annual report (all available in English), and the latest Net Asset Value per Share, are available free of charge at the registered office of the Management Company, FundRock Management Company S.A. in its offices at 33 Rue de Gasperich, L-5826 Hesperange, Luxembourg and/or on the following website [www.baronfunds.com](http://www.baronfunds.com).

**Past Performance and Previous Performance Scenarios:** The cost, performance and risk calculations included in this key information document follow the methodology prescribed by EU rules.
